

A CASE STUDY ON LENSKART-ONE STOP SHOP FOR TRENDY EYEWEAR

EYEWEAR DESTINATION – ONLLINE & IN-STORE

Jeevitha M.R

ABSTRACT

Inside the eyewear's market, this study investigates how consumers view Lenskart brand identity, personality and image. An initial sample of Lenskart customers and prospective customers was surveyed quantitatively and qualitatively as a part of a mixed-methods technique.

The results show that Lenskart is well known for its creative approach to business, offering affordable eyewear and making it easy for customers to find and buy glasses. The company uses modern technology, such as virtual try-on tools and at-home eye exams, to improve the shopping experience.

Lenskart's brand story, which focuses on offering high-quality eyeglasses that are affordable and accessible, resonates well with customers. The company's visual identity is considered fresh and attractive. However, some customers have concerns about the perceived quality of Lenskart's products compared to more expensive brands. While Lenskart is recognized for offering a wide variety of eyewear, there is still room to improve how the company communicates its commitment to quality and its expertise in eyewear.

Overall, these findings offer Lenskart valuable insights on how to strengthen its competitiveness and brand image. By highlighting its strengths and addressing customer concerns, the company can further develop its identity, personality, and position in the eyewear market.

Keywords: Lenskart, Affordable, Virtual try-on.

INTRODUCTION

LITERARUTE REVIEW

Reviewing the literature is important because it reveals the broad areas of interest that may hint to particular issues worth researching. It will be possible to identify areas of relative neglect as well as places of focused, current attention. The evaluation will support the investigation. understanding of the connections between the topic under consideration and other fields of study.

OBJECTIVES OF THE STUDY

- ⇒ To study the social economic characteristics of the respondents.
- ⇒ To identify the factors that influences the respondents to purchase the products through Lenskart.
- ⇒ To analyse the level of satisfaction towards Lenskart products.
- ⇒ To find out the problems faced by the respondents towards Lenskart.

SCOPE OF THE STUDY

- ⇒ This study helps to find out Lenskart's position in the competitive eyewear industry.
- ⇒ This study highlights the preference of the customers towards Lenskart.
- ⇒ This study helps to understand customer experience on Lenskart.

NEED OF THE SUTDY

- ⇒ The need for this study arises from the growing importance of Lenskart as a leading player in the eyewear industry particularly in India.
- ⇒ As the company has successfully blended online and offline retail, it offers a unique case, for understanding modern business strategies, e-commerce, and consumer behaviour.
- ⇒ Understanding how Lenskart capitalizes on the rapidly growing online eyewear market, which is reshaping the retail industry.
- ⇒ The integration of advanced technologies such as AR and AI in Lenskart's operations provides an opportunity to explore the role of innovation in driving business success.

LIMITATIONS OF THE STUDY

- ⇒ A sample size of 100 respondents was chosen due to the time constraint for the study.
- ⇒ The area of the study is restricted to Tumkur district only. So, the results may not be generalized to other places.
- ⇒ The accuracy of the figures and data depends on the respondent's view.
- ⇒ This study does not include a detailed financial analysis.

SUGGESTIONS

- ⇒ A sizeable portion of respondents reported having some issues with offline buying. This issue needs to be closely monitored, examined, and resolved.
- ⇒ The company must make effort to provide items at competitive prices, as product pricing significantly influences consumer's choice.
- ⇒ Various forms of advertising must be used to inform people about offline purchasing.
- ⇒ Lenskart must improve its supply chain management to ensure timely delivery and reduce customer dissatisfaction.
- ⇒ Lenskart must introduce a customer loyalty program to improve retention and brand loyalty in a competitive market.

RECOMMENDATIONS

- ⇒ Make use of browsing history, purchasing patterns, and demographic data to provide personalized content, promotions, and product recommendations to every customer.
- ⇒ Expand affordable eyewear options to appeal to a broader demographic and ensure inclusivity for customers across different income segments.
- ⇒ Enhance customization options by allowing customers to personalize both frames and lenses to suit their individual style and needs.
- ⇒ Improve the virtual try-on tool by enhancing its realism, ensuring customers can visualize eyewear more accurately before purchasing.
- ⇒ Expand home eye test services to additional cities, making it more convenient for customers who prefer not to visit stores.

CONCLUSION

The data collected through this survey provides valuable insights into the challenges and opportunities Lenskart is facing in enhancing its customer experience, operational efficiency, and overall market positioning. By implementing the suggestions and recommendations outlined in this paper, Lenskart can address key issues such as improving product quality, affordability, optimizing delivery processes, and enhancing customer support. Moreover, leveraging advanced technologies like AI for personalization and refining supply chain management will further elevate the brand's competitiveness in the growing eyewear market.

Lenskart's brand image, personality, and identity within the eyeglass sector are significantly shaped by its customer-centric approach. The results emphasize how important it is for Lenskart to satisfy customers with its prompt customer service and tailored advice. Lenskart has the potential to strengthen its customer-centric strategies and establish itself as a brand that puts customers' needs and pleasure first by investing in technology, training, and community involvement.
